TELEGRAMS

(By Havas Agency)

Brussels, 15th—The situation is becoming daily worse owing to the spread of the strikes all over the country.

Bucharest, 15th—Mr. J. Bratiano, ex-Premier, died to-day at the age of 69.

Lisbon, 15th—In view of crisis in Cabinet, it is probable that San Januario will come in with a liberal Ministry.

Asuncion, 15th—The first section of the extension of the Central Paraguay Railway will be inaugurated to-morrow.

EUROPEAN POLITICS.

Yesterday's telegrams are of more than usual importance. The new Italian premier has emphatically reiterated in the Chambers at Rome that the Triple Alliance is of a purely defensive character, to guarantee the peace of Europe. A similar declaration about a month ago was ill received in Germany, Chancellor Caprivi asserting that the alliance is both offensive and defensive. If the allies themselves are not agreed on the subject there is reason to apprehend that the alliance may not be of long duration.

Italy has been put to very heavy outlay in the way of armaments, which would hardly have been considered necessary but for the alliance, and this outlay has entailed successive deficits in the Budget, increased taxation and discontent. Last week another Italian loan was spoken of, for 20 millions sterling, which it was proposed to negotiate in Berlin; but Baron Rudini's speech in the Chambers is not calculated to further such an operation. If Berlin refuses the money, and the market of that capital is at present suffering severely from Argentine complications, Italy must try elsewhere. Not in Paris, for the relations between the two countries are not sufficiently friendly.

Hence it is more than probable that the new Italian loan will be floated in London. English capitalists have always evinced the utmost readiness to lend to Italy, notwithstanding the fact that the Italian public debt has increased enormously of late years. Meantime there is a general impression in England that the British Government some three years ago made a secret alliance with Italy, which still subsists. If this be so it may act as a dissolvent of the Triple Alliance. This would be, perhaps, far from desirable, as any impartial person must feel that the Triple Alliance has been the chief agent in maintaining the peace of Europe in the late stormy years of Eastern policy.

The telegrams also inform us that Great Britain and Portugal have made friends, by mutual concessions in Africa. The morality of such concessions, in disposing of what belongs to neither of the high-contracting parties, is a matter, like the opium trade of India, that cannot bear scrutiny. However, all things censidered, we are glad to see Great Britain and Portugal again on a friendly footing.

SALES OF REAL ESTATE.

In Friday's *Nacion* there is an interesting article by Don Alberto Martinez on the above subject, which may be condensed as follows, with some remarks of our own added.

The number and value of properties sold in the last 5 years were as follows:—

Year.	Number.	Value, $.
1886	4,409	38,000,000
1887	6,316	84,000,000
1888	6,944	122,000,000
1889	10,370	304,000,000
1890	5,353	103,000,000
5 years	33,392	651,000,000

In order to better understand these figures it may be well to bear in mind that the total value of real estate in 1884 was approximately as follows:—

	Millions $		
	B. Ayres.	Provinces.	Total.
Land....	301	226	527
Houses..	303	169	472
Total..	604	395	999

It would seem, therefore, that the properties which changed hands in 5 years were equal in value to two-thirds of the Argentine Republic.

The number of buyers in the 5 years compares with that of sellers as follows:—

	Buyers.	Sellers.
Argentines..	13,803	17,535
Italians.....	11,880	18,879
Spaniards....	2,397	1,881
French.....	1,528	1,223
Germans....	549	496
English.....	529	496

We are unable to explain how the number of sellers greatly exceeds that of buyers, or how it is that the total sales in the first table sum up 651 millions and in subsequent tables a less amount. Señor Martinez, however, sums up the values of properties bought and sold by the several nationalities as follows:—

	Millions $	
By	Bought	Sold
Argentines.....	287	353
Italians.....	78	79
Spaniards	27	29
French.....	24	24
English.....	18	12
Germans.....	12	11
Montevideans.....	7	7
Total.....	453	515

We should have expected that the amount of properties bought and sold should be equal. Be this as it may it appears that Argentines have been selling their birthrights freely, having parted with houses and lands to an excess of 66 millions over what they bought. The inference is that they have been living extravagantly.

The English on the other hand (including Irish and Scotch) have been buying largely, their purchases being $6,000,000 over their sales. The Germans also shew a favorable surplus of one million dollars.

As regards Italians it will be noticed they have not increased the value of property held by them, and this is explained by the number who have left the country since the crisis began. Moreover in the 5 years they shew an excess of 6,999 sellers, all of whom may be presumed to have returned to Europe.

Señor Martinez gives us to understand that the sales of property apply only to the city and suburbs, and if this be so the value of what changed hands in 5 years exceeds the total assessed value of Buenos Ayres, which was only $246 millions in 1884.

The following table shews the areas sold and the value—

Year	Sq. metres	Millions per metre	
		$	$
1886...	5,000,000	33	7.60
1887..	7,000,000	84	12. 0
1888..	19,000,000	122	6.40
1889..	43,000,000	304	7.10
1890..	9,000.000	103	11 40

The foregoing, meantime, affords no guide to the relative value of houses and lands in the several years. City property usually sells at ten or twenty times the above ratios. Besides, if the above were a safe guide it would appear that property in 1890 was worth 40 per cent more than in the preceding year, whereas we know the reverse was true. Very probably the sales in 1888-89 were mostly suburban, those in 1890 mostly in the central parishes of the city, which would at once explain the difference.

Comparing the values of properties bought and sold with the number of buyers and sellers of each nationality the average of each property was as follows:—

	Average of	
	Purchase.	Sale.
By	$	$
Argentines.....	21,000	20,200
Italians.....	6,500	4,200
Spaniards.....	11,500	15,100
French.....	16,000	19,500
English.....	32,000	24,000
Germans.....	20,500	21,600
Montevideans.....	27,500	27,000

It appears that the most valuable properties are those bought by our British residents, and the smallest by Italians.

According to the *Contribucion* or Real-estate register of our city the number of property-holders in 1887 and in 1890 shewed thus—

	1887.	1890.
Argentines.....	15,368	12,645
Italians.....	12,349	14,711
Spaniards.....	2,853	3,122
French.....	1,977	2,237
English.....	569	644
Germans.....	446	530
Montevideans.....	479	478
Total.....	34,041	34,367

It is surprising to find Argentines form only one-third of the total, which shews what a cosmopolitan city ours is. The Italians, of course, preponderate; there are 23 Italian house proprietors for one English. In fact we are less than 2 per cent of the total. The Germans are coming close up on us, whereas a few years ago they were vastly behind.

Señor Martinez further gives us a return of city mortgages in the last two years, viz—

	No.	Sq. metres	Amount $
1889...	1,562	5,350,000	38,100,000
1890..	1,133	2,990,000	20,500,000

In both years the average mortgage was $7 per sq. metre. Mortgages in 1889 were as 12 per cent of the value of properties sold, and in 1890 almost 20 per cent.

There is much to be learned from tables such as the foregoing, and we hope Mr. Martinez will continue his investigations.

THE PRESIDENT'S MESSAGE.

BANKING REFORM.

I believe that State banking has seen its day and that it must be abolished. My reasons for this belief I have already given in the Message of the 7th April, but I may add a few arguments to prove the pernicious effects of the system. All the State-banks were converted into National and Provincial Treasuries: they received in deposit all the revenue and had to meet all the drafts to meet Government expenditure: in fact an account current was opened and Government could overdraw at liberty. Thus, whilst the Banks had available funds, the respective Governments paid little attention to the collection of revenue or to equilibrium in the Budget, as the Bank made good the deficit. The fatal results of such a system might have been foreseen; the day that the Banks ran short of funds the Governments found the revenue short, taxation reduced and collected in a deficient manner, and had to face excessive budgets. The Governments of rich provinces are to-day in difficulties and are endeavoring to reduce their budgets, put some order into the collection of taxes and to shunt affairs into a normal groove; meantime, they are in great straits to meet the most urgent requirements of administration.

I believe, however, that the State Banks cannot be allowed to disappear unless provision is made to fill their void; their liquidation would otherwise prove a fresh disaster. They have played a most important role in our economic development, they have been the lungs of our circulation, and though they are paralyzed to-day and occasion serious disturbances, their reorganization is indispensable, or they must be replaced, for they are a vital necessity.

Let it be remembered that the private banks that work in the Republic are exclusively commercial institutions, operating in the great commercial centres; though they lend important services they cannot attend to the requirements of agriculture, of the cattle industry and of sheepfarming to the extent required by their increasing development.

There is no doubt that the quickest and easiest means of solving the difficulty would be to reorganize the State banks, correct their defects in management, revive their credit and give them the means of continuing their operations; it is not to be wondered that at a "prima facie" glance the majority should support this view of the case. But certain investigations are rendered necessary before the adoption of such a plan; we must first know how these banks stand, how far they are compromised by general losses and what share of these losses they must sustain.

An ordinary bank of deposits and discounts may be perfectly solvent, yet obliged to close its doors; its liabilities may be payable at sight while its assets may take time to realize. This may be the case with these State banks, especially the Bank of the Province of B. Ayres. It may also happen that their collapse is solely due to their state of insolvency.

It stands to reason that in the first of the above cases the re-organization of the State banks would be an easy task; it would suffice to grant them a 'moratorium' or means to meet obligations at sight until they could realize their assets.

But in the second case such assistance would be useless, since the banks either lack or could not realise assets to meet their engagements. The only way out of the difficulty would be to replace those banks, to start new concerns with fresh capital to attend to the requirements of the nation and to help the liquidation of the old State banks, facilitating such an operation and taking advantage of whatever movement or credit they might still enjoy.

Both these alternatives have been discussed in Cabinet Councils, and the Executive is prepared to submit to you a bill in either sense according to the circumstances of the case. But before coming to any decision in this regard we must have a perfect knowledge of the exact condition of both Banks, if they are solvent or otherwise.

I believe the moment has arrived to provoke a parliamentary investigation in which the Executive will join: such a commission would supply the information required and would afford a sound basis for reform or reorganization.

Without such antecedents any scheme might provoke even greater anarchy in the discussion, for all arguments would be based on deficient information, supplying no reliable foundation for a solution of the difficulty. I believe this parliamentary investigation to be the most radical and rapid means to arrive at a conclusion.

THE MADERO PORT SUFFERERS.

It is not generally known that Messrs. Walker, contractors for the Madero Port, sent home free of charge all the people that they had brought from England. The suspension of the works, however, threw out of employment numbers of men engaged here, many of whom were "Dresden immigrants," whom the Argentine drummers in England and Ireland had picked up and sent out here, with promises of free landgrants, cattle, food, implements, etc.

Messrs. Walker were by no means bound to pay the passage back to England of any persons but those whom they had brought out. Nevertheless they generously subscribed £270 for the purpose, which sum along with the subscriptions of Messrs. Nelson, Drysdale, Hunt, Anderson and others made up £600, for which amount Messrs. Lamport and Holt took 160 of the people home to England per Galileo, cleared from this port on the 14th inst.

There are still 8 families for whom it is desired to obtain passages; the required amount would be probably £100. We shall be glad to receive any contributions for the purpose, and if the sum available be not sufficient for all it might be well to have the names drawn by lot at Messrs. Lamport and Holt's office. The generosity of the British public during the last two months has been eloquently shewn in response to various appeals. We believe it is by no means exhausted, and hence we hope the last of the Madero sufferers will be relieved.

THE ENGLISH LITERARY SOCIETY.

A LIVELY MEETING.

A special general meeting of this Society was held in the rooms at 732 Cuyo on Friday last, the president, Prof. W. Martin, in the chair, the principal business being to accept the resignation of the committee en masse, and then to elect them again, as no other names had been placed on the notice board.

The Rev. J. H. Gybbon Spilsbury moved that the president, vice-president and the old members of the committee be requested to withdraw their resignations, and that the Revs. Pelham Ogle and D. J. Moir Porteous and Messrs. N. Barnes, L. Christie, W. S. Goode and W. Pilling be elected as members of the committee, and Messrs. E. W. Darmer. T. Gebbie and W. S. Smee as suplentes. This motion was seconded, and carried nem. con.

Considerable confusion was now caused on a point of order being raised by the Rev. Dr Thomson, several gentlemen attempting to address the meeting at the same time, and the chairman being unable to reduce the meeting to anything like order.

Mr. Bulfin was then called upon to move the series of amendments in the Statutes and Rules of which he had given notice. He at once withdrew the alteration in Statute 9 of which he had given notice, as he now understood that, if carried, it would involve submitting the Statutes once again to the Government for approval.

He then laid before the meeting arguments why Rule 23 as it now stands should be amended, but, however laudable his intention may have been, he only succeeded in raising a storm of opposition from the Revd. Mr. Spilsbury and Mr. Bladen, who criticised Mr. Bulfin's language, opposed his arguments and objected to his grammar. A staunch supporter of Mr. Bulfin now arose in Mr. Percy who did not resume his seat without delivering some shrewd blows. Mr. Dinneen then gave the best and most amusing speech of the evening—a really brilliant oration, polemical, it is true, but full of scintillating emanations of wit. The Reverend Dr. Thomson proposed "the previous question" which was seconded by Mr. Seedorff, just as a gentleman whose name is unknown to us was rising to propose a sound, sensible amendment to Mr. Bulfin's motion. The Rev. Pelham Ogle then, unnecessarily to our mind, explained "the previous question." Mr. Dinneen again rose, and, some of his observations proving unpleasant to Mr. Bladen, a somewhat heated passage of arms passed between these gentleman, in which the wit and argumentative ability of the one were too much for the more serious remarks of the other. Ultimately Mr. Bulfin's motion was lost by 29 to 12.

Mr. Bulfin again rose, this time to move an addition to Rule 24 to the effect that "when it has once been ascertained that a quorum is present, the subsequent proceedings shall be legal, notwithstanding that the number of members present at any time may fall short of the quorum originally required." But the fates were inexorable, and the doom of Mr. Bulfin's proposition was sealed in a manner which, had the alteration formed part of the Rules, could never have happened. A few members having retired from the meeting, Mr. Bladen called the attention of the chair to the fact that there was not a quorum (40) present. Thereupon, the President (whether rightly or wrongly it is not our province to decide) declared the meeting, amidst considerable confusion, dissolved. So ended one of the most unsatisfactory meetings of the Society held for several years—unsatisfactory because of the quibblings and pettiness of the arguments used, the personalities freely indulged in, the want of order, and the tactics adopted to defeat Mr. Bulfin's amendment to Rule 24, which, whatever opinions might be held concerning the advisability of adopting it, certainly offered for discussion a topic of great importance to the Society.

In the meantime, whilst the general meetings are conducted in this manner, no one need be surprised should the true interests of the Society suffer very materially. This institution was founded to promote intellectual recreation; it may be by some imagined that the proceedings of Friday last constitute one form of such recreation, but we greatly doubt whether this will be the opinion of the majority. We feel it our duty to point this out, not for the purpose of cavilling or of making unpleasant remarks, but in the interests of the Society itself.

OUR LONDON LETTER

(From our own Correspondent.)

SATURDAY'S POSTSCRIPT.

April 11th.

A gentleman, and from the phrasing of his letter I should say a Scotch gentleman, writes to the *Statist* recommending those who believe in the future of the Argentine to sell 1886 Bonds and buy other descriptions. He says:—"In three or five years time the balance of trade, between increased exports and decreased imports, will have aggregated to many millions sterling, and the credit of the Argentine Nation (if it shall be a homogeneous whole) will have reasserted itself. A believer in this future will be wise to effect an exchange at present current prices of his Bonds of the 1886 Loan for some of the other sterling loans of the Argentine Government, which have fallen something like 50 per cent from figures touched in the early part of last year."

The gentleman signs himself "Facts and Figures" and the reason he gives for his advice is that local monetary interests having to suffer so much in Buenos Ayres a strong pressure will be put on the Government to cause them to treat 1886 bondholders like other creditors of the Republic and retain in the country the £400,000 gold required annually to pay the coupons of the specially favoured loan.

The Editor of the *Statist* says his correspondent is well informed and he has thus inserted his letter without taking any editorial responsibility for the advice rendered.

The *Statist* in an article on the Argentine crisis, thinks the best comment on the decree giving a National guarantee to the depositors in the National and Provincial Banks, etc., etc. is furnished by the congratulations addressed by the mercantile community to the Minister of Finance and by the fall in the premium on gold.

Your usually captious contemporary evidently approves the new method of breaking the fall of bankrupt concerns, and the resurrection theory of creating new firms and new banks out of the fallen. "Of course," says the *Statist*, "there are many difficulties to be got over, before the new bank is thoroughly established." Your contemporary goes on talking for a whole two columns about old notes and new face values and gold bases, but the end of it is he thinks the consideration of these matters can be postponed, for in any case "it will be a long time before prosperity can be fully restored."

This morning, in consequence of a further decline in the gold premium to 242, Argentine securities again rose slightly. The Hamburgh *Borsenhalle* seems to follow the ideas prevalent in London of forming committees to watch Argentine financial affairs in the interests of European investors. The Hamburgh journal also, like the London *Times*, suggests that the Argentine Republic should financially be put in commission, and even goes as far as recommending the assistance of European Governments.

* * *

The once familiar phrase in newspapers, "The Situation in Europe," has long been neglected, as the world believed in peace. There is nothing serious in the surface condition of European affairs, but it cannot be concealed that there is a certain bubbling up of the long seething troubles below which may oblige us to turn our attention to foreign affairs. The Panslavist element is restless, and recent events in Bulgaria are by no means isolated from the largely connected train that may be fired at any moment. The military preparations in France and Russia are no mere fancies of newspaper correspondents, while they are not necessarily causes for immediate alarm. The Bulgarian Government has, it is reported to-day, demanded from Russia the extradition of the murderers of Beltschag, while Prince Nikita of Montenegro is about to visit Constantinople on a diplomatic mission on behalf of Russia, which is supposed to have for its object the promise of the Sultan of at least a strict neutrality in view of possible occurrences. The internal affairs of Belgium are also a source of uneasiness to Europe, which could not bear much strain of a political nature that might involve social revolution and dynastic changes. Affairs in Belgium, it is thought, will reach a climax in about six weeks hence. A general strike of the miners is threatened, and it is these men who largely form the military reserves the Belgian Government is accustomed to rely upon in case of internal disturbances.

* * *

The lynching in New Orleans of members of the Mafia has given additional interest to the trial at Bari of 179, members of another Italian secret society called the "Mala Vita," the objects of which are robbery and assassination. Italian writers have long since attributed the creation of these societies to the old world latifundia still existing in Southern Italy, where the landed proprietors, not daring to live on their estates, farm them to miscreants who reduce the people to despair—a people already predisposed to brigandage through heredity, race and caste.

* * *

Freedom as developed by the English race in the United States has its vices. Lynching is not assassination but it is perilously near to it. At Bremond in Texas a bad character named Gibson has just been lynched for stealing a barrel of apples. After the wretched man had been tied to a finger post and shot to death, it was discovered that he was innocent of the theft. The American lynchers coolly observed that Gibson was shot on "general principles."

* * *

A scandal in Paris similar to the Cleveland street case has occurred at a bathing establishment in the Rue Pontievre. Among the persons arrested are eleven Frenchmen, three Americans and a young Englishman of good family already known in the London scandal. One of the Frenchmen is the son of a high legal personage in Paris. The French magistrate is determined to proceed vigorously with the case and punish the culprits.

* * *

The great showman, Mr. Barnum, whose death you will know of, was buried yesterday. Cars full of flowers were sent from New York to grace his funeral at Bridgeport. His death was painless. He had no organic disease and died from sheer old age. He had been gradually dying for twenty one weeks. Some hours before his death he was unable to speak, but he gave occasional glances of recognition to his friends. His chief heir is a grandson who will have a fortune that is estimated at five million dollars. The show, in which 3,500,000 dols. are invested, will by provision in articles of partnership be continued by Mr. Bailey. Barnum was born in Bethel, Connecticut, in 1810. The London papers are filled with his biography, but we have seen it all before.

* * *

The Shrewsbury and Talbot cab horses have just been sold by auction. It speaks volumes for the goodness of London cab horses and the care taken of them when it can be stated that many of the S.T. horses were in work for five years and the company has realised at the sale within £200 of the original cost of the three hundred animals. Few sold under 10 guineas, some fetched 49 guineas, and the average price was just under 20 guineas. Many were well bred, and a brown gelding, once known to aristocratic frequenters of Epsom and Sandown, sold for 51 guineas.

* * *

Sir James Fitzjames Stephens, the badgered judge, has resigned—not because his medical advisers had doubts or that he himself had doubts about the state of his faculties, but because some friend—Sir James never condescended to read newspapers himself—had pointed out to him some remarks in the *Times*, and he could not consistently with his honour remain on the bench. He took an affecting leave of the bar and assembled judges. The Lord Chief Justice and Mr. Attorney-General Webster bore a prominent part in the proceedings. The bar no doubt wept, but it was from the bar and the *Law Times* that the complaints of Sir James' incapacity first came. He is a man of great intellect, but it seems to me to be clouded by uncontrollable prejudices. He wanted to so alter the criminal law that few of us, not being Unionists, would escape hanging. Mr. Richard Hein Collins, Q.C., succeeds Sir James.

* * *

Lieutenant Grant has retrieved the accident to British arms at Manipur by a brilliant defence of a fort where he commanded a few men. He was attacked by 3000 Manipuris, who after three hours fighting retired. There is no doubt left about the massacre of Mr. Quinton and his fellow-officers at Manipur, but the true history of the affair is not yet known. General Graham, who is now concentrating his forces, will reach Manipur in about three weeks. The Senaputty is said to have been killed in the attack on Erant. We hear also that the Jobraij or Regent has been executed by his own people. The Residency and the Valley of Manipur seem lovely spots, as shewn in the *Illustrated London News*.

SCIENTIFIC EXPLORATION.

A scientific exploration is now being organized under the direction of the eminent naturalist, Louis de Boccard, of the La Plata Museum, with the object of studying and collecting the various faunæ of the Brazils, Paraguay and the Misiones.

The expedition, which is to set out in the early part of June, will be accompanied by a special artist, whose letters, giving a full account of its progress and adventures, will be published in the newspapers of this city, as opportunities allow

To all such as may be interested in these expeditions we warmly recommend this venture, either by joining the expedition as an excellent opportunity of exploring a magnificent and interesting country, or in assisting in its realization by contributing towards its funds.

All details and information will be furnished on application to Mons. de Boccard, La Plata, or to Mons. Weissenbach, chemist, Calle Rivadavia, corner Suipacha.

MONTEVIDEO ROWING CLUB.

The annual general meeting of the Montevideo Rowing Club was held on Wednesday evening in the Lafone Memorial Hall, about 30 members being present. The chair was taken by Mr. W. H. Denstone. The report and accounts for the past year were adopted unanimously. Despite the crisis which has affected all institutions, the position of the Club is satisfactory. The number of active members has increased to 115 against 103 last year. In regattas the Club had held its ground. It again beat Buenos Ayres in the International four-oars, coming in a good second to the Club Nacional of Montevideo, and in the same regatta had carried off the pairs. The circumstances of the Club had not permitted the holding a regatta, but it was hoped to arrange one for next November when a crew from Buenos Ayres might attend. The thanks of the Club were due to that at Buenos Ayres for the kind hospitality shewn by them. Great hopes were reposed in the junior members of the Club, many of whom showed promise of becoming good oarsmen. It was thought that the new season would be more active and interesting than the past. During the year the limited income of the Club had been subject to some heavy strains, including the purchase of a shell-four and unusually heavy repairs. For all that there was a cash balance in hand of $337.32, above the average of many years.

The Chairman then called attention to the state of the boathouse, which had been examined by experts, and it was found that the supporting beams and piles were so unsound that it was exposed to danger of wreck in the coming winter. For the sake of the valuable club property it was absolutely necessary for these to be strengthened at once, and the outgoing Committee, on making enquiries, has found that for a very little extra cost it would also be possible to enlarge the boat house affording nearly double the accommodation. The cost for the whole job lay between $500 and $600, part of which extra expenditure it was proposed to meet by a general subscription among the members and perhaps by holding an entertainment or smoking concert. Mr. C. F. Davie had kindly undertaken to superintend the work personally, and to guarantee sound and satisfactory workmanship. Acting on this indication the meeting unanimously passed a motion authorising the incoming Committee to proceed as indicated.

Officers and Committee for the coming year were then elected with the following result. President, C. J. T. Davie. Vice-President, R. Fisher. Captain, D. W. Fraser. Vice-Captain, W. L. Poole. Treasurer, C. M. Barrett. Secretary, N. Cranstoun. Committee, C. Trimble, W. H. Denstone, A. B. Hill, A. D. Dunbar, J. H. Clarke, J. Dey, Arthur Davie, R. Ludeke. Auditors, J. Muller, J. Hall.

MAJOR BARRITT'S NIGHT SHELTER.

In consequence of the increasing work caused by the Social Reform Wing of our work in this country, it is important that we should have some kind of conveyance for the gathering of gifts of food and clothing, and making regular calls each day at the places where such gifts are promised on condition of being called for.

This at present is quite impracticable, as we have no way of getting things to the Home in Barracas, and so a good many things are given away before we can reach them. Maybe there are some of your readers who have a second-hand dog-cart and harness suitable for this purpose, and we should feel deeply grateful if such could be sent us. Kindly address 1488 Calle Chacabuco.

A. de Barritt.

EDITOR'S TABLE.

Those privileged to go on 'Change had all the fun to themselves yesterday. The Gold Eagle tumbled about as if he had taken more salmon for breakfast than was good for him, and made things lively for the children of Mammon.

The news from Chile is important, and the decisive struggle is thought to be approaching. The Government troops are concentrating at Valparaiso and the patriots at Iquique, so the cannon's roar will soon be heard again. The Stephens division of Chilian troops that violated Argentine territory last week has been disarmed and forced to release all its prisoners. This is more the proper state of things than what happened with the Camus division.

We hear that the Boys' Orphanage Committee of Ladies have resolved to substitute a concert for the intended Fancy Ball. They amiably do this in order not to interfere with the Cinderella and other Terpsychorean reunions.

The Senate did not meet yesterday. The finance and banking committee of the deputies held a siting in "antesalas;" but nothing was definitely decided.

The Foreign Club feed will come off on the 21st; not 20th as we said yesterday.

The Football match at Quilmes today ought to attract a crowd, as the best players in the country will be in the field, and the more ladies they see looking on the better they will play. The train leaves the Central Station at noon sharp.

A shocking affair occurred yesterday morning in Calle Belgrano, where an Italian named Rigamondi accidentally jostled a Germannamed Shiller, who gave him a slap in the face, and was then and there shot dead on the spot by him. Schiller had only just left his residence, and was carried back a corpse to his wife and family.

A League football match will take place to-day between the St. Andrews and Caledonian Clubs on the ground of the latter. As it is the first time this season that these two Clubs have met and there are two points at stake towards the gaining of the promised badges, which the team with the greatest number of points to their credit will be presented with by the League, a very interesting game is expected. The teams are as follows:— St. Andrews goal, Carter; backs, Penman and Waters, (Captain); ½ backs, Francis McDonald, Buckhanan; l. wing, Brown and J. Buchanan; centre, Morgan; r. wing, Caldwell, Lamont. Caledonians goal, Gibson; backs, Caird and Gifford; ½ backs, McEwan, Angus and Clark; l. wing, Rigg, Wilson; centre, Sutherland; r. wing, Corner and Whiyte; referee, J. Wilson, (La Platense.)

Poor Argentina has now fallen so low that even Mexico, now that she is getting up in the world a little, will not even look on the same side of the street where her unfortunate sister is. A correspondent of a New York journal writes from Mexico: "Recently the New York *Mail and Express* predicted a financial crash for Mexico on the ground that the country was travelling the same road as the Argentine Republic. There was never a greater absurdity. Mexico, in almost every feature of her governmental finance, and her business customs, is the reverse of the Argentine. In this large city and great centre of commerce we have not a stock exchange. It will often require days for a broker to sell, or buy, a few shares of mining stock. There is no form of commercial gambling. The banks make no loans to politicians because they are politicians, as was the case in B. Ayres. Mexico is a slow-going, substantial sort of country from a commercial stand-point. Great business houses here remain for scores of years in existence; many of them become almost historical. The managers succeed one another as death or retirement takes them out of active business. But the houses go on in orderly march with well drilled staffs of employés. There is little extravagance among the merchants. The list of great commercial houses that have been ruined by wanton extravagance during the last half-century can be reckoned on the fingers of one hand. The Germans and French, who reign here almost supreme in trade, are, for the most part, quiet, staid people, who live in comfort, but indulge in nothing like extravagance."

For the first time for months and months the telegrams from Rosario yesterday had no murder or crime of violence to report. This is extraordinary; but only the exception that proves the rule. It is high time for the police and administration of justice in Rosario to be thoroughly reformed from top to bottom.

The northern side of the streets was as slippery yesterday up to noon as ice or a patent scheme for curing the broken shins of the State Banks without shinplasters. It was like walking on ice, and numerous "croppers" befel middle-aged people not very firm on their pins. In the vicinity of the markets orange and banana peels rendered pedestrianism doubly dangerous and exciting.

By some financial legerdemain only possible in Cordoba the Free Bank of that province has managed to wriggle out of the Free Banking Act, and will henceforward bank and bray on its own hook, quite indifferent to what Cato may say, think, or do. At least such was the news from the learned city yesterday. More astounding still is the announcement that an attorney who had been vainly trying for 12 months to get out a deposit of $56,000 has been paid in full; the Bank's "vales" have risen from 25 per cent discount to 6 per cent, and the "shave" on the notes has fallen to 13 per cent. All this has been brought about by the new Chairman of the Bank, Señor Bouquet. We wish he would come down here and give our high financial authorities a hint or two. The rub in Cordoba now is to prevent the Municipality repudiating its Loan, which would give the London capitalists who advanced the money another bad attack of tic-douloureux. So much for giving "tick" to extravagant Municipalities.

The new Spanish Legation in Calle Chacabuco, which is a present to his country from Mr. Castells, will be opened with great doings to-day. President Pellegrini is expected to attend.

That great and good Alderman, Mr. Coronado, whose proposals to the Council are rarely crowned with success, had another slap at the Tramways on Friday in a question to the Lord Mayor, as to whether the companies were legally authorized to change the horses under the cars in the public streets, instead of entering the stations for the purpose. This is simply puerile. A change of horses takes about half a minute, if so much, so the assertion that the operation blocks the traffic is pure Aldermanic gammon.

"Medicine," said a little girl to her playmate, is something that makes you be careful not to catch cold again."

A nice trip is now afforded to adventurous young gentlemen with time on their hands. M. Luis de Boccard naturalist of the La Plata Museum, is forming a party for an exploration of Paraguay, Misiones and the adjoining parts of Brazil, to make a collection of the fauna of these regions. The start will be made in the first week of June. Particulars can be had from M. Boccard at the Museum in La Plata, or Mr. Weissenberg, the druggist, Calle Rivadavia, corner of Suipacha.

Poor B.O. is going to the bad in the Immigration line as well as her afflicted sister Argentina. During April there were 2,077 departures against only 786 arrivals, leaving a deficit of 1271 persons who have fled the country. This proportion of those going away, against those coming is even larger than on this side. Brazil is also suffering from an exodus, and the Government is now assisting back to Europe Jews and others it assisted out only a year ago. This is the way Brazilian money is flying since Dom Pedro was turned out.

A correspondent of *Export and Finance* writes:—"I heard a story the other day, which was told to illustrate the different way in which young men are regarded in Boston and New York in reference to their capacity for business. A middle-aged man who left Boston for New York to go into business surprised his friends on his return on a visit by appearing without the full beard which he wore on his departure. With his jaunty mustache, which was the only relic of his hirsute appendages, he looked quite youthful and was hardly recognized by his acquaintances. On asking the reason for the change, he said: "A man

The GASEOUS FLUID is the very best colic medicine I have ever seen given to horses, and the RED DRENCH for any illness after foaling or calving or lambing is, I consider splendid.

We understand that Mr. Bolt leaves shortly for England to make final arrangements to open a house of business under his own name.

The Lamport and Holt packet Leibnitz arrived in Montevideo to-day and will enter the Boca to-morrow.

The Royal Mail packet Moselle will be in Montevideo to-morrow and in this port on Monday or Tuesday.

Shipping agents report freights very weak, due to the limited supply of produce offering. The ocean tramps also keep freights low by entering from up-rivers half-full and taking anything offering at any rate, so as to fill up.

The statement of the averages, acreages, etc., of the United States Crop Report by the Agricultural Department anticipates a yield of 118,000,000 bushels over 1890, or a total of 368,000,000 bushels. Higher prices imply a yield in dollars of 198,000,000 over 1890. Other crops are similiarly promising.

The returns of the Census in India just completed show the population of the Indian Empire to be 285,000,000, being an increase of fully thirty millions since the last census taken in 1881.

We cut the following from a financial exchange :—

«There is much complaint in London regarding the lack of a clear statement from the Bank of England as to the progress of the liquidation of the affairs of the old house of the Barings. The weekly reports of the bank, presented in the customary form, shew an increase in the item 'securities other than public' from an average of some £20,000,000 to £33,000,000, but no explanation of the matter is given. Possibly this increase is due to the taking in of securities from the Barings as collateral for large payments made to discharge their obligations, in which case the bank is amply secured by the guarantee of £17,000,000 against loss, or the increase may be due largely to heavy loans made to borrowers who are compelled to ask extraordinary favours. It is not unlikely that several strong houses are in a tight place, and there is a belief current that it may be more difficult than was at first thought to uphold the Argentine credit and prevent disaster to many houses in the South American trade. The liquidation has gone on without jar or noise, but there are people in London who will breathe easier if there is no interruption in liquidation during the coming three months.»

Mr. Gmo. Printzenskold's circular shews that the movement in Rosario port for month of April embraced 45 vessels entered and 58 cleared, taking the following cargo :—

31,439 dry hides
13,299 salted hides
1,483 bales of wool
30,857,560 kilos of wheat
200,970 kilos of linseed
812,300 kilos bones
55,200 kilos quebracho-wood
43,000 kilos horns
59,179 bales hay

The circular says : «The month has been rather quiet in shipping, especially for European ports. Although there is a considerable quantity of wheat in the colonies unsold, the farmers are not inclined to sell at prices offered by the exporting houses, and many are inclined to believe that the wheat still unsold will be wanted for consumption in the Republic during the winter, and obtain higher prices. News from Europe regarding quebracho-wood are not encouraging, and people employed in this business prefer to leave the wood in the bush, as it will not pay to bring it down from Upper Parana and Chaco to the seaports. Vessels are in good demand to load hay for Brazilian ports. A couple of vessels can still be placed to load wool here for the United States.»

The movement in the Central Produce Market yesterday, May 13th, was as follows :—

Arrivals ; 12 wagons with 245,500 kilos of wheat and 4430 kilos of salted horsehides.

Twelve wagons arrived on Thursday with 63,390 kilos of wheat.

The Administrator of «Contribucion Directa» has intervened in the following sales of property :—

Muy Señores Mios,

Tengo el gusto de comunicar a Vds. que las 4 maquinas de Esquilar sistema Wolseley me han dado un resultado satisfactorio y no quer'a darles este informe hasta no haber concluido con la esquila de borregas. La maquina trabaja bien, esquilamos con facilidad cualquiera oveja por mas fina y arrugada que sea: saca mas lana que la tijera y tiene la ventaja de no cortar, pero si en algunos casos rasguña descuidandose el esquilador. Estas lastimaduras sanan facilmente, y se ha en cada vez menos cuanto mas practica se adquiere. No he notado que se me hayan muerto animales por esta causa.

Convencido de su eficacia pienso colocar doce aparatos para la proxima esquila y creo poder hacer facilmente el trabajo con ellos. Puedo asegurar a Vds. que los esquiladores mas torpes aprenden facilmente, prefiriendolas a la tijera.

Pueden Vds. darle la publicidad que gusten.

DR. J. COLLIS BROWNE'S

CHLORODYNE.

The original and only genuine

Advice to Invalids.—If you wish to obtain quiet refreshing sleep, free from headache, relief from pain and anguish, to calm and assuage the weary achings of protracted disease, invigorate the nervous media and regulate the circulating systems of the body, you will provide yourself with that marvellous remedy discovered by D. J. Collis Brown, (late Army Medical Staff), to which he gave the name of CHLORODYNE, and which is admitted by the profession to be the most wonderful and valuable remedy ever discovered

CHLORODYNE is the best remedy known for Coughs, Consumption, Bronchitis Asthma.

CHLORODYNE acts like a charm in Diarrhœa, and is the only specific in Cholera and Dysentery.

CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitation, and Spasms.

CHLORODYNE is the only palliative in Neuralgia, Rheumatism, Gout, Cancer, Toothache, Meningitis, etc.

From Symes & Co', Pharmaceutical Chemists, Medical Hall, Simla, January 5, 1880. To J. T. Davenport, Esq., 33, Great Russel Street, Bloomsbury, London. Lear Sir,—We embrace this opportunity of congratulating you upon the widespread reputation this justly esteemed medicine, Dr. J. Collis Browne's Chlorodyne, has earned for itself, not only in Hindostan; but all over the East. As a remedy for general utility, we must question wether a better is imported into the country, and we shall be glad to hear of its finding a place in every Anglo-Indian home. The other brands, we are so sorry to say, are now relegated to the native bazaars, and, judging from their sale, we fancy their sojourn there will be but evanescent, we could multiply instances "ad infinitum" of the extraordinary efficacy of Dr. Collis Browne's Chlorodyne in Diarrhœa and Dysentery, Sapasms, Crampas, Neuralgia, the Vomiting of Pregnancy, and as a general sedative that have occurred under our personal observation duty many years. In Cholerae Diarrhœa, and even in the more terrible forms of Cholera itself, we have witnessed its surprisingly controlling power. We have never used any other form of this medicine than Collis Browne's from a firm Conviction that it is decidedly the best, and also from a sense of duty we owe to the profession and the public, as we are of opinion that the substitution of any other than Collis Browne's is a deliberate Breach of Faith on the part of the Chemist to prescribe and Patient alike. We are, Sir, faithfully yours, Symes and Co., Members of the Pharm. Society of Great Britain. His Excellency the Viceroy's Chemists.

CAUTION.—Vice-Chancellor Sir W. Page Wood stated that Dr. J. Collis Browne, was, undoubtedly, the Inventor of Chlorodine; that the story of the defendant Freeman was deliberately untrue, which he regretted to say, had been sworn to.—See the "Times," July 13, 1864.

Sold in bottles at 1s. 1 1/2d., 2s., 9d., 4. 6d., and 11s. each. None is genuine without the words "Dr. J. Collis Browne's Chlorodyne" on the Government stamp. Overwhelmning medical testimony accompanies each bottle.

CAUTION.—Befare of Piracy and Imitations.

At the Estancia Grande, the property of GEORGE BELL, there are always on Sale Clydesdale and Cleveland Stallions, Durham Bulls, and Lincoln Rams, also Potros suitable for carriages and heavy draught.

As all animals offered for sale at this Estancia are by stallions, bulls, etc., imported direct from England by the owner, it would therefore be advantageous for intending purchasers to inspect the same before purchasing elsewhere.
Nearest Station (under a league from the Estancia) EMPALME PEREIRA F.C. a La Plata from whence animals can be despatched to any part of the Republic.
Animals of the same breeds are obtainable at the Estancia La Favorita. Apply to the Mayodomo, Almacen La Suiza, Carrera Tandil a Necochea, or to Hotel Dhees, Tandil; also at Estancia Santa Catalina. Apply Mayordomo, San Jose de la Esquina, F.C.O.S. Rosario.

Only Address in Buenos Ayres — Venezuela 1062.
